

EMPATHY MAP

Team ID: SWTID-2026-8434

Project Name: Standard Laptop Procurement Automation using ServiceNow Flow Designer

Maximum Marks: 4 Marks

PERSONA

Name: Standard Laptop Requester

Role / User Type: Employee / Service Catalog User

SAYS

- "I need a Standard Laptop for my work."
 - "I want my laptop request to be processed after approval."
 - "I want to know whether my request has been processed."
-

THINKS

- "Will my laptop request be processed after approval?"
 - "How long will it take for my request to move to the Hardware team?"
 - "Will my request be handled correctly without delays?"
-

DOES

- Submits a Standard Laptop request through the Service Catalog.
 - Checks the request status and approval details.
 - Waits for the approved request to be processed and the laptop to be configured.
-

FEELS

- Concerned about delays in laptop request processing.
- Uncertain when the request is waiting for further processing.

- More confident when the approved request is processed through a consistent automated workflow.

EMPATHY MAP SUMMARY

The **Standard Laptop Requester** needs a simple and efficient process for getting a laptop request processed after approval. The user expects the approved request to move smoothly through the procurement process without unnecessary delays.

The proposed **Standard Laptop Procurement Automation** addresses this need by using ServiceNow Flow Designer to automatically create a Catalog Task after approval and assign it to the **Hardware** group. This helps create a consistent workflow for processing Standard Laptop requests.

EMPATHY MAP

SAYS

"I need a Standard Laptop for my work."

"I want my laptop request to be processed after approval."

"I want to know whether my request has been processed."

THINKS

"Will my laptop request be processed after approval?"

"How long will it take for my request to move to the Hardware team?"

"Will my request be handled correctly without delays?"

DOES

Submits a Standard Laptop request through the Service Catalog.

Checks the request status and approval details.

Waits for the approved request to be processed and the laptop to be configured.

FEELS

Concerned about delays in laptop request processing.

Uncertain when the request is waiting for further processing.
