

Code-Layout, Readability and Reusability

Team ID: SWTID-2026-8434

Project Name: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Maximum Marks: 5 Marks

Code Quality Checklist

S.No	Code Quality Parameter	Description	Followed	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Yes	Flow configuration is organized consistently using ServiceNow Flow Designer.
2	Proper File Structure	Files and folders are logically organized	Yes	Project documentation and related project files are organized systematically.
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Meaningful names such as Standard Laptop Task and Requested Item Record are used.
4	Function / Method Names	Functions are descriptively named	Yes	ServiceNow actions such as Create Catalog Task clearly describe their purpose.
5	Code Comments	Inline and block comments explain logic	Partial	The workflow configuration uses clear field names and action descriptions; extensive code comments are not applicable.
6	Modular Design	Code is split into reusable functions/modules	Yes	The workflow is configured using separate trigger and action components in Flow Designer.
7	No Redundant Code	Duplicate or unused code is removed	Yes	The Flow contains only the required trigger and actions for the Standard Laptop workflow.
8	Error Handling	Exceptions and errors are handled gracefully	Partial	The workflow is tested through the Service Catalog request and

S.No	Code Quality Parameter	Description	Followed Remarks
			approval process; no separate custom error-handling code is used.

Reusable Components / Modules

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level
1	Standard Laptop Task Flow	ServiceNow Flow Designer	Standard Laptop procurement workflow	High
2	Service Catalog Trigger	ServiceNow Flow Designer	Standard Laptop request processing	High
3	Create Catalog Task Action	ServiceNow Flow Designer	Creation of hardware configuration tasks	High
4	Requested Item Record	ServiceNow Platform	Connecting approved requests with Catalog Tasks	Medium
5	Hardware Assignment Group	ServiceNow Platform	Assigning tasks to the Hardware team	Medium

Overall Code Quality Assessment

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	The Flow is organized with a clear trigger and required action configuration.
Readability	5	Flow name, action name, description, and assignment group are clearly defined.
Reusability	4	Flow Designer components can be adapted for similar Service Catalog automation workflows.
Documentation / Comments	4	Project documentation clearly describes the Flow creation, assignment, and testing process.
Overall Score	4.5 / 5	The solution is clearly structured and maintainable within the ServiceNow Flow Designer environment.
